PB5

Impact Resistant Fender Protectors

- High-Strength Extruded Aluminum Main Structure

- Replaceable Mar-Resistant, Molded, Solid Core Rubber Side Pad

- Available for PB 200, 300 and 400 Series (Crown Victoria, Impala and Charger)

PB300 "Extra Duty"

- Available in Lightweight, High-Strength Aircraft Grade Aluminum

- High-Strength 3/16" Aluminum One Piece Main Structure

- Replaceable Mar-Resistant, Molded Solid Core Rubber Push Pads With Inset 5/16" Non-Shearing Bolts

- 1/4" x 2-2/1" Steel Mounting Brackets

- Durable Black Powder Coated Finish

BODYGUARD PUSH/PURSUIT BUMPERS

Reinforced construction engineered for maximum strength and field-tested by the state, city and county police, the BodyGuard Push Bumpers have a powder-coated finish for maximum durability and can be easily installed. These bumpers will increase protection to fenders, grille and headlights and will not interfere with the SRS airbag system.
