

Mirror-Beam™ Series

Integral Mirror Mount Strobe, & Super-LED® Lightheads

Patent Pending

Mirror Beams are available in Strobe and Linear Super-LED. Put added unobstructed warning light where you need it... forward and at critical intersection angles. Individual models available for: Ford Crown Victoria, Chevrolet Impala, Tahoe and Suburban, Silverado, Silverado Classic, Avalanche, & the Dodge Charger/Magnum

Designed & Manufactured in the U.S.A.

Super-LED

Available in red, amber, blue, and clear

Strobe available in all 5 safety colors

Form# MB0607

FEATURES

- Field replacable 500 Series (5" x 2") linear strobe or ultra bright Linear Super-LED lightheads in custom molded housings fit over the vehicle's existing mirror glamour caps.
- Increased traffic clearing ability and intersection safety.
- Mid-level safety signals on the outside of the vehicle reduce interior clutter and eliminate safety concerns with air bag restraint systems.
- Maximum spread between lightheads profiles vehicle's width at night and improves vehicle tracking plus distance perception to vehicle.
- Unless specified otherwise, mirror beams are for use with remote controlled exterior mirrors only.
- Less affected by snow and mud than grille/bumper mounted lighting.
- Lenses follow the natural housing angle to your advantage. The direct aiming point is offset, improving immediate intersection visibility.
- Sturdy, integrated housing offers individual models to fit eight car/truck vehicles.
- Strobe Mirror-Beam installation kit includes 15' of special high-flex three conductor shielded cable; Super-LED models come with a two connector 18 gauge 15' cables and all sets come with connectors for each lighthead plus detailed installation instructions.
- Textured black finish housings, sold in pairs. Optional white finish for Ford Crown Victorias.
- Designed and made in U.S.A.
- U.S. Patent Pending.

STROBE

- Ultra wide-angle light dispersion with Whelen 500 Series linear strobe tube and reflector.
- Field replaceable flash tube/reflector assembly.
- Used exclusively with Whelen strobe power supplies, sold separately.

Super-LED®

- LIN6™ Super-LED mirror mounted lightheads are ultra bright, ultra wide angle lighting with low amp draw.
- Split lens colors now available.
- 500 Series LIN6 Super-LED technology for "bright as strobe" mid-level warning lighting for critical safety angles.
- Rated for 100,000 hours of operation.
- Scan-Lock™ flash patterns, standard.
- Add remote model 3TERM Flasher for alternating flashing.

WHELEN®
Engineers for the Emergency Warning Industry

Attention Getting Mid-Level Lighting Protection

Ideally placed high and wide, Mirror-Beams add definition to a cruiser's profile and increase motorists' perception of distance to the cruiser. Visible from the front and side, Mirror-Beams maximize vehicle visibility and intersection safety.

Flash Patterns

Twenty-five Flash Patterns for Super-LED™ Mirror-Beam:

Flash Pattern	Phase Set
SingleAlert™ 7	1
SingleAlert 75	2
CometFlash® 75	1
CometFlash 75	2
DoubleFlash™ 75	1
DoubleFlash 75	2
SingleFlash 75	1
SingleFlash 75	2
ComAlert™ 75	1
ComAlert 75	2
LongBurst™ 75	1
LongBurst 75	2
PingPong™ 75	1
PingPong 75	2
SingleFlash 60	n/a
SingleFlash 90	n/a
SingleFlash 120	n/a
SingleFlash 300	n/a
DoubleFlash 150	n/a
ComAlert™ 150	n/a
ActionFlash™ 1	n/a
ActionFlash 2	n/a
ModuFlash™	n/a
ActionScan™	n/a
Steady	n/a

Strobe flash patterns depend on power supply used
