### Lighthouse options for your system!

More certified warning products for the front, rear and side of your bike including Strobe and LED lighthoods and beacons, Sirens and Siren speakers, and Whelen HDP Power Supplies and Flashers. All Whelen motorcycle warning products are certified by independent test laboratories as meeting or exceeding the appropriate legal requirements for SAE, AAMVA and California Title XIII.

All LEDs are available in red, blue, amber and white.

**When you are in Law Enforcement your warning system may be the most important part of this picture.**

At Whelen Engineering we've taken a long history of working with Law Enforcement, added a reputation for leading the industry with innovative lighting products and designed a superior lighting and siren system. Super tough, super bright LED warning provides all the punch of strobe but is longer lasting, moisture and vibration resistant and lower in current draw.

**Don't compromise your safety. Be safe, be seen and be certified with the industry's best legal warning products. Just choose the motorcycle box opening preference, lighting package and options.**

Harley-Davidson® motorcycle systems provide maximum protection to the front, rear and sides of your bike. Warning package includes molded touring box with left hand, right hand or rear opening, terminal block with fuses, 12 VDC receptacles, Strip-Lite™ brake/tail/turn lighthouse, and choice of four or six 400 Series Linear Super-LED® lighthoods mounted on back and sides of touring box (available with split LED colors).

**Motorcycle Systems**

Models include black motorcycle box, separation plate, Strip-Lite LED brake/-tail/turn lighthouse, flasher, terminal block with fuses and 12 VDC receptacle.

- **MB4R** Four 400 Series Right (Curb Side) Opening
- **MB4L** Four 400 Series Left (Road Side) Opening
