

# Havis Ledco Universal Laptop Mount

The ultimate in ruggedized mounts

# UT-X

## When flexibility and safety count

The new Havis® Ledco® series of Universal Laptop Mounts represents the next generation of ruggedized mounts for any laptop that does not have the need for port replication. With a new lightweight design featuring composite materials and a lightweight and strong aluminum structure, the Universal Laptop Mount provides the most flexible and durable universal tray available for mobile computing applications. The Universal Laptop Mount, in conjunction with Havis supplied mounts and motion accessories, continue the tradition of Havis designing the most ergonomically correct and safe solution for your equipment while minimizing the risk of injury and maximizing productivity. This combination of comfort, quality and safety in a truly universal device are what make the Ledco Universal Laptop Mount the clear choice.

- Engineered with lightweight aluminum and composite materials to maximize strength while minimizing weight.
- Attractive footprint and design provide for improved ergonomics in universal tray application.
- Easy to use latch mechanism
- Barrel lock provides security and theft-deterrence
- Easily configurable by the user for the best ergonomic fit with most laptop computers and manufacturers.
- Complies with MIL-STD 810F vibration testing
- Latch mechanism tested to 50,000 cycles
- SAE J1455 Crash Tested

Lock helps keep your computer secure

Fences are adjustable so that laptop is secure but ports and vents are not obstructed

The Universal Laptop Mount attaches to existing Havis mounting equipment

## UT-X
