MADE IN THE USA

AN AMERICAN SUCCESS STORY

How does one measure the success of a company? The first and most obvious answer is; the money you make. But is that the true measure of success?

As I reflect on the 20 plus years of being at the helm of TruckVault I can take pride in many things. Perhaps most important to me are the relationships created with TruckVault Employees. The first person we hired at TruckVault when we moved from Seattle to Sedro-Woolley still works at TruckVault. We have shared our profits with our employees, we have enjoyed seeing our people raise families, buy homes and contribute to the community. This is success.

TruckVault enjoys a diverse customer base with sales covering the globe. Our customers return time and again knowing the product they receive is the best there is on the market. When a problem comes up we don't shy away but immediately work to fix it. Success is being respected by those who own and use TruckVault products and we have enjoyed years of respect. Indeed that is success.

We at TruckVault are very proud to say that our products are entirely American Made by American workers. This is a strong measure of success.

Yes, TruckVault has been financially successful but at the same time we have been generous with a wide array of charities from sportsman organizations like Pheasants Forever, DU and many more including organizations such as Boys and Girls Club and Hunter Education. TruckVault is and will continue to be a good neighbor. This is success.

We thank all of you who have joined us in making TruckVault the vibrant successful business it is today.

Alan Chandler

CUSTOM... IT'S WHAT WE DO.

CUSTOM DRAWER SIZING

TruckVault can customize the size, number, and orientation of the drawers of your TruckVault to create virtually any configuration.

CUSTOM BED CONFIGURATIONS

If you have tanks, tool boxes, or any other equipment in the truck bed, just provide us with the detailed measurements and we can customize an item to fit.

MULTI-STACKED DRAWERS

Sometimes the best direction to go is up. When space is limited, or equipment is at a maximum, we can stack drawers to maximize storage.

DRAWER FACE FINISHES

You can even customize the look and feel of your TruckVault with optional accessory drawer faces in a wide range of high-end wood grain finishes.

SECURITY: IT'S OUR #1 PRIORITY

At TruckVault, we take pride in providing our customers with the peace of mind that comes from knowing that their valuable gear is secure, no matter where they may leave their vehicle.

PUSH-BUTTON WITH KEY OVERRIDE LOCK

The most secure and trusted lock among law enforcement agencies

ALL WEATHER COMPRESSION LOCK

Heavy-duty key lock used in conjunction with The Extreme Series™ TruckVault drawer systems

PRODUCT SPOTLIGHT ON:

STRIKE GUARD™ TECHNOLOGY

» ONE MORE LINE OF DEFENSE

With vehicle break-ins on the rise it is paramount firearms and other valuables be secured responsibly. Strike Guard Technology has been added to reinforce the Push Button Key Override Kaba Lock with a flanged lip, consisting of a Strike Plate and Backer Plate constructed out of AISI 1020 Galvanized Steel. When locking the new system the Strike Plate works in unison with the Backer Plate and primary structure of the unit to firmly lock the bolt and help prevent bolt tampering and movement.

STRIKE PLATE

Works in unison with the Backer Plate to help prevent bolt tampering and movement

BACKER PLATE

Works in unison with the Strike Plate to help prevent bolt tampering and movement

TRUCKVAULT [SUVs + VANS]

» SIZING YOUR VAULT

TruckVault products for full-length SUVs come in three primary lengths: Short, Medium, and Full. The adjacent table explains the different sizing options available.

SHORT: The short TruckVault fits snug against the third-row seat. We recommend a one-drawer configuration for these models.

MEDIUM: The medium TruckVault requires the removal of the third-row seat, but doesn't always reach the second row entirely, leaving extra room for storage. (Also for vehicles with no third-row seat)

FULL: The full TruckVault extends all the way to the back of the second-row seat, providing a seamless storage space on top

» EXPLORE YOUR OPTIONS

The new Ford Explorer is one of the most popular SUVs on the road today, and TruckVault has a full suite of models designed specifically for it. Utilizing an innovative bracket installation system for the ultimate in security, a TruckVault is the perfect accessory to get the most out of your Explorer.

TruckVault's Lift System uses air-assisted cylinders to make lifting the entire unit a snap. Simple design, all steel construction, and engineered for heavy service to last the life of your vehicle.

As an alternative for the spare access Lift System, TruckVault also offers a 1 and 2 Drawer shortened length option, providing you a more direct access to your spare tire.

See pages 11-12 for available spare tire access options.

TRUCKVAULT [FORD EXPLORER]

TRUCKVAULT [SPARE TIRE ACCESS]

SPARE TIRE ACCESS OPTIONS

Maintaining access to your spare tire is an important factor in finding a secure storage solution that will work for your needs. To achieve that, TruckVault has designed several methods for maintaining access depending on the vehicle. Our Elevated models raise the TruckVault up and allow the spare tire to be pulled out from underneath. And the Spare Access Lift System allows for a full-size TruckVault to be raised on a reinforced hydraulic lift to gain access.

» ELEVATED TRUCKVAULT

QUICK ACCESS TO YOUR SPARE

Flip up the factory floor panel, or the included replacement panel on some models, to gain direct access to the spare.

RUGGED BRACKETS

Powder coated steel brackets secure directly to factory locations for a secure and tough install.

MAXIMIZE STORAGE

Preserves space underneath to store items that do not need to be secured.

» TRUCKVAULT LIFT SYSTEM

STEP ONE

* Loosen by hand the two star knobs located on both sides of the TruckVault

STEP TWO

* Firmly grasp the handles on the TruckVault and slide the vault out to its fully extended position. Hand-tighten the outside safety locks from step one.

STEP THREE

* Using the handles, lift the TruckVault upward. The built-in air assist cylinders will help offset the weight.

**Lift System

starting at **\$495 USD**
for Explorer PPV Pursuit.

starting at **\$595 USD**
For Civilian Explorer.

** Due to the storage weight capacity of your TruckVault, it may be necessary to unload equipment from the drawers before lifting.*

*** Only the 2011+ Ford Explorer can accept the Lift system.*

» WHY A COMMAND CENTER?

When you need mobile office space in the field, TruckVault is a name you can trust. The TruckVault Mobile Office Center creates an entire working space in your department's full-sized SUV. Organized secure storage, map board, and equipment drawers reside in the back, while file cabinets and desk space are accessed at the middle of the vehicle, creating the ultimate in-field office solution.

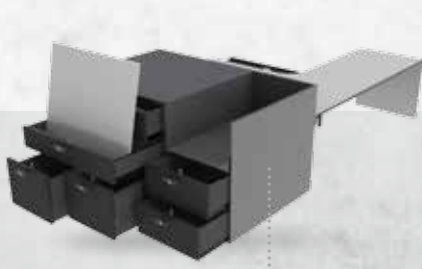

With the Mobile Office Center you're always prepared. Your lead officer works safely inside the vehicle, planning routes of entry and attack while safely out of the weather and with all the necessary tools at his disposal. The rest of your equipment remains securely organized in the back of the vehicle.

» THE EXTREME SERIES™ ALL-WEATHER

When we say Extreme, we aren't just tossing out a word we think sounds good. Through frigid Montana winters and blistering Texas summers, your gear is protected to the fullest. We've even taken fire hoses to the front of the TruckVault – that's more than 100 pounds of direct water pressure – and not a drop got inside. When put to the test, TruckVault performs every time.

BUILT SMARTER To Work Harder

A true workhorse, The Extreme Series™ is designed with the outdoorsman in mind. Completely weatherproof, able to carry 2,000 pounds of gear on top, and fitted with easy-to-access tie-downs, it's just as strong as your truck bed—only better!

LOCKED AWAY From the Elements

Featuring our exclusive folding T-handle compression locking system, the Extreme All-Weather Series drawers seal watertight and lock securely, keeping the contents protected from the elements.

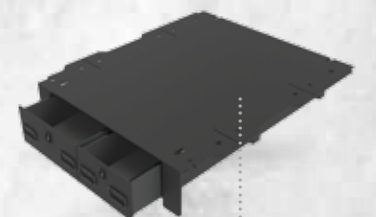

* The Extreme Series™ is covered by a 3-year plus limited customer lifetime warranty.

KIM RHODE

Pro-Staffer Kim Rhode is no stranger to success. Most recently Kim became one of only two people to win an Olympic Medal in six consecutive Olympics when she took Bronze in Rio in '16. Along her path Kim's had to deal with her fair share of adversity. When Kim's prized Olympic shotgun was stolen from her truck, she turned to TruckVault to help ensure it would not happen again. Congratulations Kim on your historical accomplishment!

TRUCKVAULT [FORD F-150]

» GET MORE OUT OF YOUR F-150

The Ford F-150 is your workhorse, and a TruckVault can help you get the most out of it. Our F-150 models are specifically sized for your pickup bed, and come in both carpeted and all-weather versions. Custom-fit wing pieces are sized to the exact contour of the truck bed and provide a false floor that can support 2,000 pounds of cargo.

Ample drawers allow plenty of room for your specialty gear and other accessories. A larger right side drawer provide plenty of room for day packs, boots, tree stands, rope, and much more.

When you have large amounts of valuable gear and need help keeping it all neatly organized, look no further than our in-drawer foam and carpeted dividers for functionality and extra protection.

ORGANIZATION & STORAGE OPTIONS

There is no better way to secure and organize your valuables when you're on the go than with a TruckVault. Our designs maximize the available storage and organizational potential of any sedan, SUV, or pickup, allowing you to hit the road with complete confidence in the safety and readiness of the valuable and sensitive equipment you carry with you every day.

HEAVY-DUTY PULL OUT TABLE

An additional work surface you can depend on! Perfect for the operator who needs to work right in the field. Locking heavy-duty slides can support up to 200 pounds, and the standard laminated surface will stand up to the rigors of field work. Available in both bottom table and top table open tray versions, and carpeted or magnetic dry-erase surfaces.

➤ DRAWER FOAM

Drawer Foam Inlay is a flexible and sturdy foam that drops directly into your drawer system. This multi-level foam allows you to cut out shapes to custom-fit your gear. The perfect solution for keeping your valuables secured during vehicle movement.

➤ DIVIDERS

Available in two divider packages: Short/Long Divider Combination and a Diagonal Divider package. Each divider comes with repositioning holders that allow you to customize your interior drawer configuration.

➤ TREKPAK™

Adaptable organization! Cut, join, and adjust these versatile foam dividers to fit your gear! Available in two package sizes : SMALL (23"), recommended for SUV sized drawers and LARGE (45"), recommended for pickup-sized drawers.

» FEATURES & HIGHLIGHTS

- Bottom table and open top tray versions
- 200-pound capacity
- Locking heavy-duty slides
- Offered in standard laminated surface with available options of carpeted or magnetic dry erase working surface

MORE HEAT RESISTANT

After two hours in a test oven heated to 150° F, each TruckVault remained roughly 28% cooler than the leading metal competitor.

» MINUTES TO 120°
Which products hit the 120 degree mark the fastest? Here are their times...

Product	Time to 120° (mins)
Extreme All-Weather TruckVault	118
Standard Carpeted TruckVault	105
Leading Metal Competitor	40

Test products in the controlled oven

Temperature gauges being prepped for test

DRAWER HEAT TEST

Can TruckVault take the heat? We tracked down a truck-sized oven to find out. Our goal was to simulate punishing desert heat inside a vehicle at midday— 150° Fahrenheit. The result? TruckVault products provided superior insulation and protection across the board, making them a superior choice to competing steel or plastic products for protecting sensitive electronics, plastics, food, ammunition, and any other heat-sensitive cargo.

WHY BUY TRUCKVAULT?

- 01

HEAVY-DUTY PUSH-BUTTON LOCKS :
Five-button combination locks with key override for easy access
- 02

PROTECTS FROM CONDENSATION :
TruckVault puts a stop to potentially damaging moisture buildup.
- 03

PROTECTS FROM DUST & GRIT:
Sealed tight from the elements, TruckVault keeps your gear grit-free.
- 04

STRONGER :
Constructed of tough MDO, TruckVault is stronger than metal or plastic.
- 05

PROVEN FIRE RESISTANCE :
TruckVault insulates stored equipment from heat and fire damage.
- 06

PROTECTION FROM THEFT :
Engineered to resist break-in. Low profile models resemble the floor of your rig.
- 07

A DESIGN FOR EVERY VEHICLE :
Each TruckVault is built to fit the vehicle it is ordered for, ensuring a perfect fit.
- 08

SIMPLE INSTALLATION :
Nearly all models can be installed in an hour or less.
- 09

CUSTOM ENGINEERED :
TruckVault frequently engineers custom solutions to meet individual needs.
- 10

LIMITED LIFETIME WARRANTY :
Trouble-free operation guaranteed as long as you own your TruckVault*.

BACKED BY WARRANTY

Your TruckVault comes with a limited lifetime warranty. TruckVault warrants you, the original TruckVault purchaser, that for as long as you own it, and providing it is installed properly and utilized in the manner of its intent, your TruckVault will be free from defects resulting from inferior materials and/or workmanship. *

* The Extreme Series™ is covered by a three year plus customer warranty.

➤ Subjected to extreme fire testing, TruckVault has been proven to protect all valuables stored inside the drawers.

➤ Compressed tight by bulb sealing, All-Weather Extreme TruckVaults ensure water and moisture do not make their way into the drawers.

MEDIUM DENSITY OVERLAY (MDO)

FEATURES

MDO is a wood substrate formed from weather-resistant resin overlays bonded to multiple layers of wood by heat and pressure. This process creates an extremely strong and durable material that is up to 40% stronger than other plywood products. Trusted in numerous industries including home construction and concrete formwork, MDO is the perfect material to create a strong, secure, and customizable product.

BENEFITS

As one of the strongest wood materials on the market, MDO is highly dependable for security products. You'll feel the strength the moment you open the drawer. MDO also has heat, moisture, and humidity protection that is superior to metal enclosures. When you combine these benefits with the ability to completely customize products to a wide range of designs, you have the very best secure storage solution for vehicles on the market.

TRUCKVAULT [MATERIALS USED]

QUALITY PRODUCTS ARE MADE WITH THE BEST MATERIALS AND CRAFTSMANSHIP. TRUCKVAULT HAS FOUND THE PERFECT ONE-TWO PUNCH.

BLACK COMPOSITE

The default drawer front on every TruckVault is Black Composite. This material provides a dense and consistent surface with extremely tight tolerances around the drawer face to ensure maximum security. High-grade wood grain drawer fronts are also available for those seeking a classic look.

CARPET

TruckVaults most commonly come completely carpeted inside and out in automotive-grade carpet. Color matched to industry standards, the carpet blends the TruckVault seamlessly with your vehicle's interior.

ALL-WEATHER COATING

Standard with all The Extreme Series™ all-weather TruckVaults, the weatherproof Armour Coating is sprayed on after the drawer system build is completed, ensuring supreme protection from fire, grit, and moisture.

WHAT DO OUR CUSTOMERS SAY?

KIM RHODE
Olympic Champion

"A \$20,000 gun stolen right from my truck! Trust me, that won't happen again. I will never own a truck without a TruckVault in it."

KRISTY TITUS
Wilderness Athlete

"TruckVault protects all of my gear, optics, and firearms from theft while keeping everything organized, clean, and easily accessible."

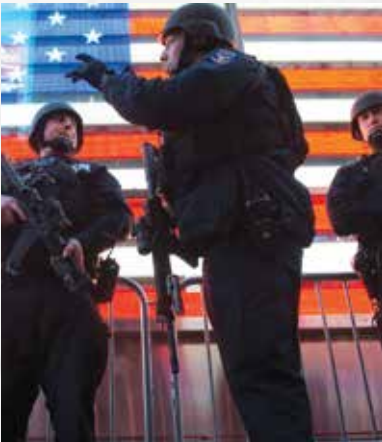

TYLER SHARP
Creative Director

"Being able to lock my camera gear all away, especially out of sight, has completely changed how I approach shoots, and allows me to take more of what I need when on location."

BRANDON PARSCALE
Pro Photographer

"As a photographer, hunter, and off-road enthusiast, TruckVault is the one accessory that fits form to function and secures all of my hobbies."

DEPUTY CHIEF
SRG - Counter-Terrorism Unit

"We receive many compliments on TruckVault's design and construction, not to mention the safety and security it provides our members."

LALLY FAMILY
Overland World Travellers

"Driving the family from Alaska to Argentina required a drawer system that could handle all our stuff. TruckVault brought it all together."

» WHERE TO FIND US

To ensure that you can find TruckVault products wherever you are, we have built a carefully screened dealer network that spans the United States, Canada, and abroad. Visit our dealer locator at www.truckvault.com/dealer or call us today and we will find a dealer near you.
