

BaseLine pedestal shown with universal tablet cradle mounted on dual pivot arm mount

BaseLine vertical pedestal (Front View)

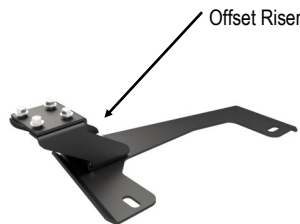

BaseLine pedestal installed under passenger seat (using existing seat bolts) in 2013 GMC Sierra

### Vertical Pedestal (Back View)

- Slim, low profile design allows for greater passenger comfort & safety
- Universal design fits multiple vehicle models and bases
- Sturdy, rugged construction for rigidity
- Adjustable height (min. 11", max. 16")
- Top platform is offset and positions device away from airbag zone
- Pedestal platform accommodates tablet, tablet / keyboard, laptop mounts

### Vehicle Base

- Lightweight aluminum material for structural integrity, vibration reduction and corrosion resistance
- Under-seat mounting (vehicle-specific)
- Quick & easy installation with no drilling
- Additional offset riser brackets are available

### Vehicle Bases (Chevrolet / GMC)

- Silverado / Sierra 1500 (2014+)
