

TOUGHBOOK

- Innovative modular design and user-removable xPAK's offer unparalleled customization
- First TOUGHBOOK PC featuring an Intel processor with dedicated NPU to optimize AI performance
- State-of-the-art design optimizes thermals for effortless performance
- Class-leading 95db speakers, 5MP infrared webcam with privacy cover and tetra-array microphones
- Fully rugged all-weather MIL-STD-810H & IP66 design built with magnesium alloy
- Fastest cellular in the industry up to 2Gbps 4G modem or 4.1Gbps 5G modem adds Sub6, and C-band

TAKING RUGGED COMPUTING TO THE NEXT LEVEL

The Panasonic TOUGHBOOK® 40 offers unrivaled flexibility in even the most demanding and unpredictable environments with its class-leading eight modular areas including its innovative modular expansion packs (xPAK's). Optical drives, authentication readers, IO ports and even the Barcode Reader xPAK are all user-upgradeable. Its state-of-the-art design optimizes thermals for maximum performance and its latest technology will ensure the TOUGHBOOK 40 will withstand the test of time. It is the first TOUGHBOOK PC featuring an Intel processor with dedicated NPU to optimize AI performance. It also has an optional dedicated GPU, up to 64GB of RAM, up to 4TB of storage, all-day battery life, four microphones, colorselectable backlit keyboard, 95db speakers, and choice of two cellular modems. The 4G modem provides up to 2Gbps and the 5G modem adds support of 5G Sub6, and C-band with speeds up to 4.1Gbps. It also has the ability to seamlessly connect to the best available network without any disruption or loss of connectivity.
