## TONNO-FOLD HARD TONNEAU COVERS

Premium Vinyl Tri-Fold Cover

**TONNO PRO**

The TonnoPro TonnoFold Tri-Folding Tonneau Cover has become the fastest growing cover in it's class! And for good reason. The hinged together sections make it easy to fold it into a more company unit. You can remove it in seconds when you have oversized cargo or simply fold it forward to lock in place for smaller loads. Our Tri-Fold tonneau cover comes completely assembled – NO DRILLING! This makes installation of your truck topper a snap.

Our TonnoPro Tri-Fold cover is unmatched in quality. It features tear-resistant double sided vinyl, and a 6063 grade powder coated frame this cover – both are covered by the industry's best warranty.

Applications for Chevy, Ford, Dodge, Nissan and Toyota Models

## LO-ROLL SOFT TONNEAU COVERS

Premium Vinyl Roll Up Cover

**TONNO PRO**

The TonnoPro Lo Roll Vinyl Tonneau Cover is one of the most versatile covers on the market. After easy installation, you can get full access to your truck bed AND have the security and protection from the elements. Our Lo Roll tonneau truck cover is mounted inside the bed rails offering access for mounting any of your other favorite accessories – like ladder racks, side rails, tie downs, bike racks – whatever you need to truly enjoy your truck!

Snap installation will have you up and running with your TonnoPro tonneau cover in minutes. There's no drilling involved and the only tool you'll need is a 17 mm socket and ratchet.

Applications for Chevy, GMC, Dodge, Ford, Nissan and Toyota Model Trucks.

## BACK-RACK™

Heavy-Duty Pickup Rack For Emergency Lighting

**BACKRACK™**  
FUNCTION AND STYLE FOR TODAY'S TRUCKS

Your truck needs to carry a lot. BackRack is a practical tool to carry ladders and long loads, secure shifting cargo, or mount almost any type of light or accessory while protecting people inside the cab.

Backrack truck rack is a truck specific rack system specifically designed for the back of certain truck cabs. Two horizontal flat steel bars are designed to protect the window of the cab. Easily secure cargo to the rack, which can also be used to attach light brackets. Each Backrack is specially designed for certain trucks, so that the cab size and the rack match perfectly. It is the same height as the truck cab that it is designed for. Available in assorted truck models.

## ALUMINUM HEADACHE RACKS

A Staple Accessory For Any Commercial Pickup Truck

**CC Industries LTD**

Our cab guards offer protection and great looks!

- Manufactured from anodized aluminum tubing
- T.I.G. welded construction
- Most makes and models available
- Fully customizable
- Stow and go model features easily removable rear rack.

## FLEET-RACK™

### Heavy-Duty Pickup Rack For Emergency Lighting

**WHELEN®**

Designed for mounting emergency and auxiliary lighting without wire clutter or holes in your truck body! And because you do not have to pre-drill any holes in the rack, fleet managers will appreciate the well thought-out design of this rack for functionality, ease of up-grade and/or transfer from vehicle to vehicle.

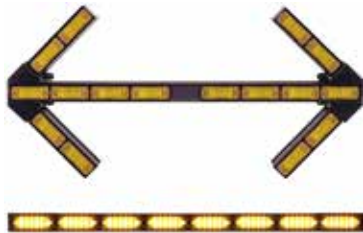

## L31 SERIES SUPER-LED® BEACONS

### Class 1 High Dome - Cast Aluminum Base

**WHELEN®**

The brightest 360° LED Beacon in the industry! Patent pending all new Super-LED optical design packs all the punch of strobe while retaining the superior performance characteristics of LEDs. Rugged and low profile. Feature built-in flashers with selectable flash patterns, Hi/Low intensity, built-in cruise lights and synchronization feature.

- Heavy-duty powder coated die-cast aluminum base.
- Choose permanent, magnetic or magnetic/suction mount.
- Available in Red, Amber, Blue and White.
- SAE J845 Class 1 certified in Amber and Blue.
- Meets NFPA Zone C Upper requirements (L31HRFN Red).

## TRAFFIC ADVISOR™

### High intensity LED traffic control products

**WHELEN®**

Traffic advisors are the versatile answer to alert oncoming traffic with a visual warning and correct direction or signal with bright, signal sequencing. Professional and special use vehicles can be fitted with models for rear deck or with outside mounted arrows that can be seen at much greater distances.

- Versatile, bright high intensity warning protection in:
- Low profile sizes, large high profile arrows, flush mount stand alone units, or built into lightbars.
- High intensity LEDs are rated for over 100,000 hours of service with low current consumption
- Rugged, water resistant LED modules stand up to road shock and vibration

## RESPONDER® LP SERIES

### Polycarbonate and Aluminum Base Mini Lightbars

**WHELEN®**

Now a low profile, mini-lightbar that provides all the high performance LED warning and signalling benefits in a smaller size that fits all your special applications. Super-LED modules in a rugged aluminum base are built to take the roughest conditions and long hours you face. They're road tested, vibration and moisture resistant and use much lower current than other warning lights. Put a Responder LP to work on your utility, security, fleet, construction or public works vehicle.

- Class 1, SAE J845 Certified • 100,000 hour rated life • 6 Super-LED modules: choose from Conical (CON3™) modules (R1LP Series) or Linear-LED® modules (R2LP Series) • Built-in electronic flasher with 30 Scan-Lock™ flash patterns plus 4 simulated rotating patterns (permanent mount versions only) • ActionScan™ default flash pattern

## VERTEX AND ION LED LIGHTHEADS

### High Intensity Signal Lighting in a Small Package

**WHELEN®**

The ION shrugs off moisture, salt, chemicals and road vibration while providing added light for off-road vehicles, industrial equipment, motorcycles, utility vehicles, marine and many other heavy-duty applications.

The VERTEX is a tiny, cost-effective self-contained lighthead ideal for applications where space is limited. A cost effective hideaway™ style lighthead requiring only a one inch hole in any composite lighthead, cornering or taillight assembly, or surface mounted to exterior surfaces anywhere on your vehicle.

## HIGH INTENSITY LED LIGHTING

### The Original LED Light Bar

**RIGID INDUSTRIES  
LED LIGHTING®**

The Rigid Industries E-Series was the first projected LED light bar. Since its introduction in 2006, the E-Series light bar has set the standard in the industry through continuing advances in technology and superior engineering. Available in a wide range of lengths and configurations, our flagship is the light bar of choice for everything from light truck / car applications and vehicle race teams to farming equipment and police / fire rescue vehicles. The E-Series light bar is designed to project light at extreme distances while consuming very little power. It features an extruded aluminum housing and polycarbonate lens that is sealed against the elements to provide years of trouble-free operation.

Available in Flood, Spot and Mixed lighting configurations for every situation.

## POWER CONTROL CENTERS AND SWITCHES

### Provide Complete Control In A Fully Assembled, Low Cost Package

**WHELEN®**

- Compact design.
- Rocker style single pole/single throw switches, rated at 25 amps peak, with 'active' LED indicators that light up to indicate function in use.
- Individual spade-type fuses conveniently located on rear mounted fuse strip.
- Ignition controlled backlighted legend windows for easy visibility in any light.
- Backlight circuit can be connected to vehicle dimmer switch to control backlight intensity.
- 72 commonly used press-on switch function label legend tabs standard.
- Black epoxy-finished, steel housing.
- Common ground post for ease of installing.
- .12 VDC.

## BACK-UP ALARMS

### PIEZO BACK-UP ALARM

**WHELEN®**

These rugged alarms have passed a one million cycle test and meet O.S.H.A., Bureau of Mines and State Regulations. 12 month warranty. Electronics, sealed in urethane, resist tough environmental conditions.

- Field proven reliability accounts for the popularity and demand for Whelen Electronic Back-up Alarms.
- These rugged alarms have all passed a one million cycle test and meet O.S.H.A., Bureau of Mines, and State regulations.
- Decibel ratings for all alarms are +/-4dB (A) @ 4', as specified in SAE J994 (March, 1985)
- The Whelen Piezo back-up alarms offer the sound level output you most often require at an economical price.
- Easy to install with years of field tested proven reliability.

### 3D MAXPIDER FLOOR MATS

Waterproof, strong, durable and wear resistant

U-Guard 3D MAXpider Mat offers today's model cars, trucks and SUVs a stylized and functional floor mat. 3D MAXpider Mat can protect your original carpet from salt stains, snow, rain and mud with a custom fit that will make dealing with harsh weather a breeze. 3D MAXpider Mats are 100% environmentally friendly because they are manufactured with non-toxic, odourless and sound isolating material. It is made with carbon fiber, which means that they are lightweight (3D MAXpider Mats' weight are approximately 30% lighter than traditional plastic mats) with a 3 dimensional embossed pattern design.

3D MAXpider Mat has a unique velcro anti-skid design on the back to keep your liners from sliding around. It also will not damage your OEM carpet, providing the utmost safety. 3D MAXpider Mats are all custom fitted, you will be able to find a mat that fits your vehicle perfectly.

### HEAVY DUTY MUD FLAPS

Protect Your Service Vehicle

The Mega-Tech brand of mud flaps are used in combination with the vehicle fender to protect the vehicle, passengers, other vehicles, and pedestrians from mud and other flying debris thrown into the air by the tires.

- Many styles and sizes available
- Includes stainless steel mounting hardware
- Products are Warranted for Life against Workmanship and Manufacturing

### ALUMINUM TOOL BOXES

Truck boxes that are designed to last!

Who's working hard? You, of course. But so are we. That's why we're able to offer these exclusive features that make WEATHER GUARD ® truck boxes easier to use, more secure and even better looking. The best choice in work truck storage? We've made it an open-and-shut case.

- EXTREME PROTECTION ® Lock tamper-resistant retracting lock helps protect against break-ins • 90° cover opening for easy access • Crimp-free/drill-free install mounting brackets • 12v pass-through provides easy, weatherproof power cord access • Heavy-duty gas springs assist for smooth opening • Automotive-style rotary latch features smooth "one-touch" opening • Latch linkage protection helps eliminate damage from shifting loads • Powder coat finish years of dependability • Full weather seal protects against the elements • Limited Lifetime Warranty for peace of mind

### CROSSOVER AND CHEST TOOL BOXES

Featuring foam filled lid and stainless steel locks for strength and durability

Our most popular toolbox provides strength and security in a style to fit your needs.

- Patented Fully Foamed Lid creates a rigid wall between outer aluminum layers to help prevent bending or warping • Lid Opens 90° for easy loading and unloading of tools and equipment • Connecting Rod Enclosure helps prevent box contents from bending or jamming the locking system • 0.063" Aluminum One-Piece Tub and Lid is designed to support heavy loads, absorb tool drops and prevent leakage • Self-Closing Struts Self-Closing Struts automatically close the lid, with slight manual pull, securing the box when hands are full • MicroSeal™ Stripping helps seal out moisture, dust and dirt • 2 Built-in Tool Trays and Screwdriver Holders add extra strength and rigidity to the box—also makes tools immediately accessible • 3-Compartment Sliding Tray or convenient small item storage and retrieval

## GEARBOX UNDER SEAT STORAGE

Messy truck... Problem solved.

The Husky GearBox® is perfect for storing loose items, reducing clutter and keeping your vehicle looking clean and organized.

This unique storage system is engineered to specifically fit under your vehicle's rear seats. Large capacity with removable dividers make it easy to store and organize both large and small items such as jumper cables, tools, car care supplies and whatever else you keep in your vehicle.

The Husky GearBox® is manufactured using co-extruded materials consisting of a rigid durable substrate for strength and a soft impact-resistant surface that minimizes cargo shifting and provides noise reduction. A black textured finish gives the GearBox® a factory look. Husky GearBox®... custom interior vehicle storage for today's most popular trucks.

## 5" WHEEL TO WHEEL SIDE BARS

Waterproof, strong, durable and wear resistant

- Fashioned from premium T304 stainless steel tube
- Seven-stage polishing for superior shine
- Custom mounting bracket for quick, no-drill installation
- Additional bar length for quick access to the truck bed from the side
- Engineered for tough weather
- Lifetime warranty

## FUEL TANKS

Protect Your Service Vehicle

**CC Industries LTD**

All our fuel tanks are built to high standards by skilled craftsmen.. "Here in Canada"

- Powder coating available as an option
- 0.125" thick construction
- Fully welded internal baffles
- T.I.G. welded lap joints on all seams
- Pressure tested and inspected
- c/w vented cap with steel threaded insert
- Available in smooth or checker plate
- ATV storage option on most models
- Sliding Trays, shocks, hidden fillers and many other options available.

## WARRIOR WINCHES

Value Without Compromise

At Winch Solutions Ltd we have long recognised that our customers want all-inclusive prices and not a long expensive extras list. So every one of our winches is supplied, as standard, with a specification that represents exceptional value.

Highest quality motors are the powerhouse, 3-stage Planetary Gears provide the right ratios for virtually any task, Water-resistant Solenoids & fully sealed housings deliver reliability in the worst of conditions and Wireless Remote Controls (selected models) mean total in-cab control.

You are supported from your initial enquiry through to spec selection, delivery and beyond. A Lifetime Warranty provides total confidence. Warrior Winches provide so much more for your hard-earned money.

## PANASONIC TOUGHBOOK COMPUTERS

Ultra Rugged Laptops and Tablets

**TOUGHBOOK**

Panasonic Toughbook® mobile computers are engineered to withstand drops, spills, dust and grime, and to perform in the harshest environments. Rugged reliability, low cost of ownership and accolades from reviewers are just a few of the reasons why Toughbook computers keep winning over the world's toughest users.

The quality, durability and reliability of Panasonic Toughbook® mobile computers translate into significant financial advantages. In situations that would damage conventional computers, rugged Toughbook computers keep performing. As a result, users eliminate costly repairs or replacements, and avoid wasting time to recover lost work. The bottom-line results are compelling: lower total cost of ownership (TCO) and greater return on investment (ROI) over the computer's useful life.

## COMPUTER DOCKING STATIONS AND MOUNTS

Safety, Uptime and Productivity Matter

**HAVIS**

Havis docking solutions secure and protect laptops and tablets in any environment while providing access to peripherals and power. Our vehicle specific mounting bases provide the strongest mounting solutions for valuable computing equipment.

Havis understands the overall goals and business problems of the mobile workforce: Increasing productivity of the workforce while decreasing overall costs and keeping workers safe. Businesses are making substantial investments in software and hardware to mobilize workforce management. Make sure you protect your investment by choosing a high quality mounting solution. Havis' years of mounting experience provides highly tested and secure solutions for integrating computing and other peripheral equipment in vehicles to keep users working comfortably and safely.

## MOBILE CONSOLES AND WORKSTATIONS

Mobile Office Solutions

**HAVIS**

Havis consoles and docking stations are designed and manufactured with the user in mind and are the first step in creating your mobile office, wherever it may be.

Accessories, such as magnetic card reader brackets and printer mounts, attach directly to your console, and allow you to effectively run customer credit card information and print receipts directly from your vehicle. Universal laptop mounts let you dock any brand of computer inside your vehicle, keeping it safe and secure while out on the job. A full line of printer mounts, arm rests, cup holders and other accessories are available to complete your mobile office access. When deploying solutions, consistency of design matters. While many competitors showcase products for the standard police vehicles, Havis offers the broadest product line in the industry, ensuring all your vehicles get properly outfitted.

## LAPTOP DOCKING STATIONS AND MOUNTS

Mounting Solutions For Your Gear

**PMT** precision  
mounting  
technologies

Now that you have a docking station for your laptop, you're going to need a mounting solution to accommodate your needs. This is PMT's specialty! And of course, we have mounts for more than just laptop computers. Everything from LCD screens, printers, flashlights, and more. We also manufacture mounts for all kinds of vehicles and applications, including: ATV's, RV's, Marine, desk, home, and on and on.

Our docking stations are built to the highest standards in the industry. Built solely from aircraft grade aluminum, we specialize in making ergonomic, low profile, unobtrusive docks that work in today's cramped mobile office's. The circuitry in our docks comes from the OEM manufacturers, so you are assured of the very best compatibility and reliability. At PMT we manufacture docking Stations for all the major manufacturers of Laptops including: Panasonic, Dell, General Dynamics/Itronix, Getac, ...and more
